

Jason Firth

(406) 493-5910 | jasondurninfirth@gmail.com | jason-firth.com

Designer with experience turning my pen and paper concepts into playable prototypes and testing them to ensure fun and feasibility before committing. Specializing in first-person multiplayer combat.

Relevant Project

- **Displaced | Team-Based, Multiplayer FPS** In Development
1,000+ Hours Development · 45 Released Patches · 50+ Playtesters · Solo Developer
 - Designed multiple characters with kits that had mixed reactions from players, resulting in reworks that later elevated sentiments
 - Expanded beyond designing, into production pipelines, implementing spatialized audio through Wwise and authoring textures in Substance Painter
 - Performed feasibility studies on both networking solutions and hosting providers, selecting the optimal solution to support low latency, a server-authoritative workflow, and simple player reconnection
-

Professional Experience

- **Freelance Game Designer** May 2025 - Present
 - Redesigned the progression for a serious games client, validated through playtesting and player sentiment
 - Diagnosed a churn point for a client through playtest observation and analytical review, then redesigned the flow, reducing early quit rates
 - Identified and fixed issues in a client's web build, improving the players' experience
 - **Implementation Consultant** FAST Enterprises, May 2024 - August 2024
 - Managed concurrent workstreams, resolving day-to-day tickets while contributing to a larger implementation project within a team
 - Designed demonstrations on new systems and workflows for clients with a varying range of technical expertise
 - **Live Stream Media Technician** CTK, May 2021 - Present
 - Analyzed expenditures and reduced costs while improving the viewers' experience
 - Minimized viewer disruption during outages, averaging under two minutes of downtime
-

Accomplishments

- **Valorant, Collegiate National Pacific Frontier Champion** Fall 2023
 - Competed as a Sentinel/Initiator at the Division I level
 - Studied opposing team comps, strategies, and pathing to devise countermeasures
-

Skills

· Unity · Blender · C# · SQL · Wwise

Education

- **University of Montana, Bachelor of Business Administration** Graduated May 2025
 - Major - Management Information Systems
